**REGISTER FARMERS ARE  
TREATING COTTON SEED**

Many farmers in Register community are treating with ceresan their cotton seed that will be used in planting. Near the work shop on the school grounds is located a seed disinfection machine to mix the ceresan dust with the seed. During the cotton planting season several hundred bushel of seed were treated on the school campus, and again the teacher of vocational agriculture invites anyone wishing to treat their seed to do so any morning of the week.

A supply of ceresan is kept on hand at the school and cost of treating a bushel of seed is ten cents.

## Portal School

The pupils of section A of the first grade are reading many stories of Holland and the Dutch children. Easter stories are also in season.

Section B of the first grade is so glad of the great improvement made in attendance in the past two weeks. We cordially welcome our new student, Mary Taylor, from Augusta.

The second grade pupils, section A, are getting their room decorated for Easter. We are making bunnies and coloring them.

In section B of the second grade the following pupils had perfect attendance during the sixth month: Jack Berry, Leo Moss, Cleo Moss, Clifford Redd, Agnes Ruth Smith, Marcelle Thompson, and Doy Williams. We are glad to have two new pupils.

Section A of the third grade is busy learning of the interesting things that happen in March. We are making windmills, kites, and Easter bunnies.

Sections A and B of the fourth grade are studying about Holland, which is sometimes called "Netherlands." We plan to make a number of things we find there.

The seventh grade has taken up the study of Georgia in history. We have put up many charts in our room. The bibliography which we have made is very helpful in looking up information. We have been interested especially in the study of the Indians who live in the central part of Georgia and whose names were derived from the number of small lakes and rivers.

Our school is very proud of the creditable showing made by both the girls' and boys' basketball teams this year. The girls especially made a good showing in the district tournament last week. On Thursday night they defeated Waynesboro, but on Friday night they lost to Swainboro by only a few points, the score being 24 to 29.

Since the basketball season is over, the group from the first through the eleventh grades have been reorganized. Most of the groups are playing soft ball.

The girls of the eighth and ninth grades, under the leadership of Coach Hazel Newsome as their captain and divided the girls into the following teams: Beatrice Womack, captain; Peggy Marsh, catcher; Margaret Denmark, pitcher; Louise Riggs, first base; Hazel Bland, second base; Vera Hedges, third base. Section B group, Hazel Newsome, captain and catcher; Colleen Parrish, pitcher; Nellie Finch, first base; Louise Clifton, second base; Mary Willie Berry, third base.

**FACULTY ELECTED**  
After having elected E. L. Parrish principal and Doy O. Gay principal of the Portal school, on February 21, the board of trustees met again Tuesday, March 5, and finished the election of teachers for the 1940-1941 term, as follows: 1A, Mrs. Robert Moore, Portal; 1B, Mrs. Anna Belle Caldwell, Baidardown, Ga.; 2A, Miss Alberta Scarborough, Portal; 2B, Miss Jessie Wynn, Portal; 3A, Mrs. Myra Brown Mosses, Summit, Ga.; 3B, Miss Elizabeth Coss, Stilton, Ga.; Miss Ruth Seligman, Statesboro; 4B, Mrs. Mary Alford, Brookfield, Ga.; Miss Sadie Bell Hodges, Daisy, Ga.; 5B, Miss Margaret S. Pitts, Cochran, Ga.; 6, Mrs. W. B. Brannen, Portal; 7A, Mrs. H. G. McKee, Portal; 7B, Mrs. Carl Wilson, Register; 8, Miss Jeannette DeLoach, Portal; 9, Mrs. Cleveland Thompson, Miller, Ga.; 10, Mrs. Harold Hendrix, Portal; 11, Doy O. Gay, principal, Portal; home economics, Mrs. Roy Cousins, Greenville, Ga.; vocational agriculture, G. T. Gard, Portal.

We have had thus far a most congenial and co-operative group of teachers, and feel that we have had a very successful school year in the Portal school for the portion of the 1939-40 term. We sincerely believe that when this school year closes, we will have ended one of the most successful school terms we have had yet.

We are very glad to have had a great deal of pleasure to the next school term and we hope to accomplish even more than we have this year.

**Wake Lazy Insides  
All-Vegetable Way**

Thousands turn to this way to get relief when they're lazy intestinally, and it has them headachy, bilious, irritable, listless. A quarter to a half-teaspoonful of spicy, aromatic, all-vegetable BILACID on the tongue, or on your tongue tonight, a drink of water, and there you are! Thus, it usually allows time for a night's rest, and a gentle, thoroughly restful morning, so relieving constipation's headaches, biliousness, bad breath.

BLACK DRAUGHT'S main ingredient is an "intestinal tonic-laxative" which helps impart tone to lazy bowel muscles. The millions of packages used prove its merit. Economical, too: 25 to 50 cents, 25c.

**NEW GAMES**  
Since the basketball season is over the students of the Laboratory School have turned elsewhere to find amusement.

The girls have started on many individual sports. Several have taken up tennis, and some have taken up golf. The boys have been playing soft ball. There has been a softball tournament going on for the last few days.

Even though the basketball season is over for us we have a good time on our new sports.

**ACTIVITIES IN LITERATURE**  
The senior have been working on various things. Some have been writing short stories, writing plays and reading the life of some of the famous writers in literature. We have been working very hard on the short story and many other things. One of the seniors wrote a newspaper article. We have been studying dramatization very much, so we are taking some of our activities writing and presenting plays.

Above is the BUICK SPECIAL  
4-door touring sedan \$895\*

THERE are a lot of things about this stunning 1940 Buick to claim your attention—that is, if you really want to know what's what in motorears.

For instance, you've got to admit that its style has done a lot to brighten up and beautify the boulevards.

And, from the way folks are swinging over to Buick, it must have something value-wise that's important for you to measure.

What you hear about its quick-off-the-mark engine and the silkiness it gets from balancing after assembly certainly calls for inquiry.

So do the rave notices Buick's Springing gets and the talk you hear about five-foot front seat room in the Super

and its Foamtex cushions soft as a down puff.

But skipping this—even skipping the fact that Buick's prices are lower than some sixes—there's one thing that alone is enough to send you hot-footing to your Buick dealer.

That's the obvious fact that as Buick goes these days so goes the industry.

It set this year's pace last year—and right now it is plainly the car others will be like "some day."

So do the obvious thing. Go try out this superb traveler.

Even if you don't discover that Buick is an immediate "must," you'll decide you'll never be really happy till you have one.

The Glee Club has accomplished very much under the direction of Mrs. Cozart, with Mrs. W. L. Downes as pianist.

We have been learning the song, "Beautiful Blue Danube." With the parts sung the song is very beautiful. The girls and boys of the Glee Club have also learned and presented to assembly many other beautiful numbers.

We enjoy the club very much. We feel that it is giving us a good background for our college glee club when we get in college.

The Glee Club has accomplished very much under the direction of Mrs. Cozart, with Mrs. W. L. Downes as pianist.

We have been learning the song, "Beautiful Blue Danube." With the parts sung the song is very beautiful. The girls and boys of the Glee Club have also learned and presented to assembly many other beautiful numbers.

We enjoy the club very much. We feel that it is giving us a good background for our college glee club when we get in college.

**NEW GAMES**  
Since the basketball season is over the students of the Laboratory School have turned elsewhere to find amusement.

The girls have started on many individual sports. Several have taken up tennis, and some have taken up golf. The boys have been playing soft ball. There has been a softball tournament going on for the last few days.

Even though the basketball season is over for us we have a good time on our new sports.

**ACTIVITIES IN LITERATURE**  
The senior have been working on various things. Some have been writing short stories, writing plays and reading the life of some of the famous writers in literature. We have been working very hard on the short story and many other things. One of the seniors wrote a newspaper article. We have been studying dramatization very much, so we are taking some of our activities writing and presenting plays.

Thousands turn to this way to get relief when they're lazy intestinally, and it has them headachy, bilious, irritable, listless. A quarter to a half-teaspoonful of spicy, aromatic, all-vegetable BILACID on the tongue, or on your tongue tonight, a drink of water, and there you are! Thus, it usually allows time for a night's rest, and a gentle, thoroughly restful morning, so relieving constipation's headaches, biliousness, bad breath.

BLACK DRAUGHT'S main ingredient is an "intestinal tonic-laxative" which helps impart tone to lazy bowel muscles. The millions of packages used prove its merit. Economical, too: 25 to 50 cents, 25c.

## FARMERS TAUGHT USE ELECTRICITY

Public Display of Equipment on  
Highway Near Lyons Thurs-  
day and Friday.

The big REA equipment show is set for two days, March 14th and 15th. The big tent will go up on the highway field near Lyons, on Highway No. 1, Thursday afternoon and everything will be in order for the first evening program at 7:30.

As the two big tents go up, the smaller tents will be pitched—tents for the lunch stand, for a workroom, tents to hold manufacturers' exhibits. House trailers will be put into place, open exhibits prepared for demonstration, while the town's feed mills, shellers, elevators, ensilage cutters, pumps and motors, and other equipments are being uncrated and put in readiness for operation.

The big farm electric equipment show has followed the custom from North to South, with showings continuous since early July. It is brought to this area through the cooperation of the Extension Service, the Rural Electrification Administration, with the Excelsior Electric Membership Corporation and neighboring co-operatives in Tattnall, Toombs and Wheeler counties.

Meals large enough for a half dozen hungry hands will be prepared in the exhibit kitchen by Miss Thelma Wilson, REA home economist, as a part of the evening's program. A home demonstration agent will share the program in addition to supervising the all-electric lunch tent in which local farm club women will be on the job all day and evening, serving up hot meals.

The whole family can come to the show prepared to stay all day without troubling to pack a lunch.

The first evening's program includes a cooking contest, discussions of electrical costs, and a demonstration of the new low-cost package lighting fixtures, and discussions of various electrical-powered farm equipment. Starting off at 1:30 the next afternoon and until late afternoon the men will see local grains, sorghums, hay and fodder ground, elevated, and cut or chopped. Many of the new smaller mills especially designed for electrical operation will be set up to run automatically through a number of processes. The dairy section of the demonstration will show various types of milkers, cream separators, and other dairy equipment types that can be used in conjunction with cream storage in the household refrigerator, to four-gallon coolers, sterilizers, and automatic drinking cups for the cattle.

The women, in the meantime, will attend extensive programs in the big tent where there will be groups to study kitchen planning, electric cooking with the range and with small appliances, a laundry demonstration, discussions of the farm refrigerator, and points of the care and selection of household appliances.

Late in the afternoon when all the grain has been ground, all the machinery operated, and the tanks or the well pumped dry, the men join the women in the tent for discussions of water heating for stock and poultry, and of electrical dairy and farm equipment, and computations of electrical costs.

Every farmer in this area, whether he uses or plans to use electricity or not, will find the demonstrations of great interest and profit, and is urged to attend.

**One-Variety Cotton  
Gains Public Favor**

The one-variety project of the United Georgia Farmers now looks like a success for 1940. More than 700 bushels of seed have been chosen by the farmers desiring to improve the quality of cotton being produced in the county.

Some of these seed are coming direct from the breeder. The Coker's 4-in-1 seed could not be bought when the seed was first offered, and the order was filled. A reliable source of seed for the breeder was located by W. H. Smith, president of the organization, and more than 400 bushels have been ordered to date from this point.

With Bulloch county being allotted only 37,000 acres of cotton in 1940, the UGFA felt it was to try to produce the best and most cotton possible on the county quota. After a study of the well-resistant varieties the Coker's 4-in-1 was selected to concentrate on. Ample seed have been ordered to assure the project goes on to provide planting seed for 1941.

## Between Us

If you were out Sunday any time during the day, an sure it wasn't hell for you, because Spring is here and Easter just around the corner. Folks seemed to be so tired of winter and darker clothes that the whole town blossomed forth the gayest of colors on our first warm, sunny Sunday in some months. Surely no Spring can boast of brighter colors than this year, and never a rainbow displayed more beautiful colors than were along the streets and in the yards. Only a blind person could pass our windows and not wish for something like that. Surely no town can boast of more attractive window displays than our stores have; if you doubt this go to some of our neighborhood towns and then you will see a pat on the back. And, by the way, did you ever sit and watch folks dress windows as they would be pleasing to the eye and do it all from the window? Sit in front of either McEllan's or United and watch them use the hundreds of different small articles in the window and see if you think it isn't a work of art. Speaking of Easter, Mary Jan Johnson, who ushered the Easter season in early with a combination birthday party Easter egg hunt, and we are still wondering when she had time to dye eggs for that many children. Little Joan Holbe, looking like a magazine cover in a blue and white angel suit, proudly displayed her eggs to her mother. By the way, several weeks ago Joan had invited a lot of friends to her birthday party and asked that morning with a high fever, and of course the party had to be called off much to the regret of the invited guests. However from the looks of her room the guests saw that she had not been kidding. She had a lot of eggs, and she was still surprised; a few weeks ago Kermit Carr and A. M. Seligman decided to have a party, thinking that the best way, started out to ride, and when they went for one of the bicycles they had planned to use, it was in another part of town, so they took turns in pedaling, and after rounding out the other bicycle they finished the ride with a race from the house to Cecil's place, and the winner had to give the Coca-Cola. They haven't yet had time to tell us about it, but it was more attractive than Mary Agnes Williams and her young son, Frank, out on new bicycles riding about town. Each spring the form of recreation grows more popular, and some of the high school crowd are planning a bicycle ride ending with a dance in the near future. When Dot and Bird Daniel's daughter arrived yesterday named her for her mother and aunt, but Bird says it is going to be half so pretty as Dot! Will you see?

"A mild ripple of excitement caused by the rumor that three negroes will be employed to take the census of Bulloch county, three being Moshek Hodges, Jacob Powell and John Lane; Times has inside information that only one negro will be employed in Bulloch, and he will work only among the colored people of the 47th and 48th districts.  
Two colored children, a boy 6 years and a girl 18 months old, arrived in Statesboro yesterday afternoon on the Piedmont train unaccompanied; boy gave his name of Son Smith and said he was from Birmingham; about the girl's name was a card with the words "After Smith, going to Statesboro." The boy carried a letter signed "Eden Smith," and addressed "Sister One paragraph," reads, "Well, Mr. Raper, don't think I am dead; look for money every two weeks till I get there."

**LANIER TELLS FRIENDS**  
Will Run For Solicitor  
Fred T. Lanier, long-time member of the local bar, returning from a brief visit to neighboring counties, he it be known this week that he has definitely decided to be a candidate in the next election for solicitor general of the Ogeechee circuit. While making this positive statement of his intentions, he stated that he considered it too early to begin an active campaign, but that he would issue a formal announcement and begin his campaign at the proper time.  
Mr. Lanier was a candidate for this place four years ago against Solicitor General Neville, and it is recognized that Mr. Neville will be a candidate for re-election in the forthcoming election, and a number of citizens joined in the festivities of the occasion.

**RODENTS INCREASE**  
IN MANY U. S. AREAS  
Advancement of civilization has resulted in the decrease of most forms of wildlife. The rodents, though, with few exceptions, have increased. Groundhogs, for example, have become more numerous as forests have been cleared for the plow.
